To whom it may concern

Dear Sirs

In my capacity as the retired Managing Director of FabSpeed UK it is my pleasure to write this reference for Mr Josef (Joe) Stefan Magyari.

Joe joined Fabspeed in the February of 2018 as a fabrication general operative on the shop floor, his duties included cutting and assembly of our range of masonry products. As a company always keen to promote from within Joe first came to my attention when we were looking to recruit an Estimator in June 2019, his department head and the factory manager alerted me to the fact he had many skills we were not utilising. After interviewing very well Joe was appointed to the position.

Joes skills were invaluable to our small office team, principally responsible for Estimating and the preparation of quotes and their entry on the CRM system he was keen to learn and demonstrate many other abilities. During Joe's time in the office he also supported our AutoCAD design team and volunteered then taught himself how to operate a new CNC machine we had purchased. Other duties included data entry of orders and digital filing of supporting documents as well as liaising with clients regarding order progress.

Coming as a surprise to all, perhaps Joe's most valuable contribution was his adopted role of IT support. Previously we out sourced even the most basic of requirements but with Joe on site and his overall understanding of IT he was able to save the business both time and money.

I retired from the business at the end of September 2023 and was surprised to learn Joe had resigned shortly afterwards (purely coincidental) he left at the end October. During the nearly 6 years Joe worked for FabSpeed I found him to be punctual, courteous, conscientious and a good team player and I would not hesitate in recommending him to any potential employer.

Should you wish to discuss Joe any further I can be contacted on the details above.

Mark Richards
